

Specifications interMARINE

Isolating Marine transformer

inter**MARINE** transformers are especially designed for shipbuilding and marine industry applications. They are also suitable for other industry applications where the conditions are more stringent, and the transformer is required better corrosion and vibration resistance.

inter**MARINE** transformers can be ordered fully customized by your requirements.

Intertrafo Oy manufactures all wound components in accordance with the IEC-standards. Other standards on customers request.

<i>Primary</i>	max 690Vac
<i>Secondary</i>	max 690Vac
<i>Rating</i>	50 VA
<i>Frequency</i>	47 - 63Hz
<i>Protection degree</i>	IP00
<i>Thermal Class</i>	B (130°C)
<i>Ambient temperature</i>	45°C
<i>Terminals</i>	Terminal block, 4mm ²
<i>Dimensions, weight</i>	66 x 70,5 x 84mm, 0,98 kg
<i>Standards</i>	EN61558 - 2 - 4
